“ Tony was great advocate and supporter of the little guy and the little projects. He was brutally honest about how things should be done at GSA and he was a long time member of the National Small Projects Program. Members of that program from across the country were saddened to hear of Tony's passing and our thoughts and prayers are with his family.

“ I met Tony when we both starting going to Homeowner Association meetings. He was always quick with a joke and you could sense the pride he had in his children because the conversation would always end up with him telling me a little about them. My thoughts and prayers are with his his family at this most difficult time.

“ Tony,
Was my first supervisor at GSA, and to some it may have seemed he had a tough exterior. Deep down though he was a kind & generous man. His guidance throughout the years was priceless, and his stories of evading the troopers in his Camaro will be truly missed. Goodbye Pops & may you rest in peace.

“ *I knew Anthony since he was an engineer with the NJ office. He eventually earned the role of engineering supervisor working on my team. He was always a consummate professional and cared very much for the people around him. He would try to help others succeed and always put in good words for his employees so they could shine. Never looking for his own recognition. I respected him a lot and enjoyed very much working with him. this is a loss for the agency and for the rest of us who knew him. God Bless you Tony.*
