“ I can't even remember how young I was when Deanna and I first met and became fast friends. She was one of my best friends all through grade school and we continued to be good friends through high school. I remember fun times at her home and with her family. She introduced me to trashy romance novels as a fun everyday read. We were co-captains of the bowling team. We went to prom together dateless. So many good memories. I cannot imagine the loss for her family, and my heart goes out to them all.

“ Deanna will truly be missed by the entire engineering community. I will never forget the first time I saw Deanna testify at a Cherry Hill Planning Board meeting many years ago where she was truthful about traffic impacts! Deanna was always a breath of fresh air and a delight to be with. She loved her family, especially the kids and always kept them as her first priority. Its very sad to lose such a great colleague.
