“ I had the honor to have been on the little league team that Pops coached when I was just a little boy! From that moment on I have looked up to him as a father figure and considered him a friend for much of my adult life. He gave me great advice when I started my business and even better advice on how to treat others! Our many conversations had many laughs but I enjoyed the serious talks the most because he always kept things in perspective and gave solid advise, which I will always remember. My coach, my friend, our Pops will never be forgotten! God bless the Johnsen Family!
