“ We are so sorry to just hear of George's passing. When your Christmas card arrived this year Jim noticed it only had your name on it. We then sadly found out that George was called home last year this time. We hope he is watching over you and you feel peace in your heart.##imported-begin##Donna and James Rayser##imported-end##

“ George, you were part of our family for the last 35 years. You were the brother Lenny never had and were like an uncle to all of our kids. You had your special knock for our front door so we knew it was you before opening it. You usually had a cup of coffee for you and one for Lenny. You would then spend hours talking with Lenny at the picnic table or on the tailgate of the pickup truck unless it was too cold outside then you would be at the kitchen table. After a few years, I found that in spite of your tough exterior you were really a softie inside. We would make fun of some of the getups you would wear, and you would laugh with us. I would argue with you about who knows what, but it was all in fun (most of the time). You were at every major event in the lives of our kids. They wanted you there because you were family. You loved playing with Sandra's little dog, Mason, who you called your Little Buddy. Are we going to miss you, George? More than words can say! Lenny and I will always be here for Judy and your family. You will always be in our hearts.##imported-begin##Pat Cunningham##imported-end##

“ George,

A bit gruff on the outside, but we knew you as a kind, caring person and a fun guy. We will miss you very much.

Love,

Ron & Carol##imported-begin##Ron & Carol Sierzega##imported-end##

“ My friend, my husband, how I miss you. I know you are in a better, more peaceful place, and there is no pain now. You fought so hard, and your work here was not done. As you said, there is so much you will miss, most of all you wanted to see the boys grow up. I promised to take care of Bailey for you, and I will. Rest in peace and watch over those left behind. I love you.##imported-begin##Judy Ries##imported-end##
