“ *"What moves through us is a silence, a quiet sadness, a longing for one more day, one more word, one more touch. We may not understand why you left this earth so soon, or why you left before we were ready to say good-bye, but little by little, we begin to remember not just that you died, but that you lived. And that your life gave us memories too beautiful to forget"*

“ *Howard, you are already truly missed. You gave of yourself, selflessly, to so many people. My garson in the summer. So many memories that will forever be etched in my heart. You made your family, and my best friend, his wife, Paulla incredibly happy. I will miss so many things about you! May you rest in eternal peace in your final home, pain free and surrounded by those who went before you. Until we meet again my friend. Love you!*

Howard, I only knew you for a few years. But I was happy to have those memories of you. You made Paulla a wonderful husband and a great father to your children. Now, Rest In Peace, as you will be in a pain free world with the rest of your family that passed before you. God Bless You. Till we see each other again.

I hope the sadness you are all feeling now will become less, we are so sorry for your loss and will miss seeing Howard coming and going with Trixie his dog, and how much pride he took in his garden and was kind enough to share his garden vegetables with us. He will be missed. Jen, Andrew and Barb

*My memories of Howard are from my time working with him at CE&IC. I have not seen Howard in several years. I will always remember him as an energetic and very intelligent guy. No matter how complicated the computer problem, whether it was software or hardware, Howard was there to solve it. Howard was always very patient and understanding when he helped others. But most of all Howard was an upbeat and friendly person who always had time to help you or cheer you up, and usually he did both.
His memory is a blessing. Dennis*

How unbelievably sad to hear this news. My love and prayers go out to the family. Howard always treated me kindly and as Dennis says - with patience since I wasn't the best at understanding the techy stuff.
