“ I was introduced to Jack very early in my career. He always made me think twice before calling for help (in a good way) so over the years when I did need him he was ALWAYS there to help! “ My earliest memory of Jack was early in my career and thinking this man hates me. After what seemed like a million calls to him, he finally said to me "For someone so bright, you sure do ask a lot of dumb questions". And as usual he was right. After that I said to myself, he must like me if he is comfortable enough to give me that feedback.

*He was truly a great mentor and coworker.*

*My condolences to his family. He will surely be missed.*

He always had an answer for you and you knew you could count on that answer being correct every time! He will be missed, will miss his sense of humor & wit, Jack shot straight form the hip, something I greatly admired in Jack. RIP Jack, ADP will never be the same without you.

“ My thoughts are with the family. My memory of Jack is that he always got you the right answer, but it sometimes came with a price...."did you look it up in the manual first?" Yes Jack, I did look it up....and because you made me look it up, I learned more than what I was asking.

*He will be missed, but not forgotten.*

*I know I'll always have a smile on my face when I think of Jack because of this story I'll share.*

*We were playing CYO basketball and myself, Jack and his brother Jim were on the same team. Jack wasn't the best and he didn't get in the games much, but in the second half of this one game he started. At the tip off he got the ball, just turned and shot and made the basket. He goes running down the court hands in the air screaming with a big smile on his face, unfortunately we had to tell him it was the wrong basket, that he had just scored two points for the other team.*
