

## John Lawrence Kuhn

September 13, 1941 - September 25, 2022

John Lawrence Kuhn, known to his family and friends as “Larry” or “Kuhn,” passed away on September 25, 2022. He grew up in Tulleytown, PA. At age 18, in 1959, he joined the Navy and got his first tattoo. He said, he thought his life was complete.

Kuhn worked on the flight deck as a HT Hull Technician (welder) on the USS Independence. He loved his job so much, that after miraculously surviving a traumatic head injury caused by a cable snapping; he went right back to work doing the same job. Kuhn has always been a very proud veteran who was honored to serve his country.

Kuhn became a Hyperbaric welder after he got out of the Navy. This job enabled him to open his own business as a mechanical contractor. He worked with Union Carbide, taking on jobs no one else would do. He worked on projects underground and hundreds of feet above ground. His crew was just as unique as him. They were a motley crew, mostly made up of bikers and motor heads. Everywhere they went, to everyone’s surprise they fixed everything and left each job in perfect condition. He retired at age 64.

Kuhn had a love for cars, motorcycles, and speed. A hardcore rider who traveled 500 miles or more a day each trip across the United States and Canada. He also had a love for nature and animals, especially cats. His home was a place for everyone, where you could stop by and have a beer unannounced. Kuhn was a loving friend, son, father, grandfather, and husband. A true self-made man who did things his own way on his own terms.

He was the most caring, generous, and kind man to those that knew him. He is with God now looking upon us with love, joy, and a beer in his hand. A brief service and celebration of life will be held October 23, 2022, from 1:00pm to 4:00pm at the VFW Post 2692. Address, 199 W South Avenue, Mount Holly, NJ 08060.
