“ *I will always remember Jose with the fondest of memories. He was a dear friend to me and we shared numerous conversations over the years about so many different topics including politics, education, history and the arts. He was a breath of fresh air for me at New Lisbon Developmental Center. I recall how excited he was about purchasing his Corvette and couldn't wait to give me and some of his friends a ride in his new car. Jose was very particular about those people he allowed to get close to him. I felt honored to call him my friend and was thrilled that we continued our communications with each other after I retired from NLDC.*

*I wish to extend my condolences and prayers to Jose's family. It is unfortunate that he left our world at an age when he was ready to retire to South Carolina to finally live closer to his beloved parents and sister. May he rest in peace with the Lord.*

*Jose was the first person to say hello to me at work the first day I started working as a nurse. I've seen him nearly every work day after that and he always had a smile.
