“ *My deepest condolences! Ken & I were great friends and partners in our Mooney. We were also Ham Radio pals! I only found his Obituary two weeks ago. I will always remember Ken!*

“ *To Kens family. you have my deepest sympathy. He was a great friend to my husband and I and will be missed by all who knew him. I only found out of his passing today as I was calling to wish him a happy birthday and found his # was no longer in service. Frank and Ken became good friends at Hadley airport in the 60's and were very close until Frank passed away 7 years ago. It was then Ken and I kept in touch twice a month on the telephone. He would always say at the end of a conversation how much he missed Frank. Now I can say I will miss Ken.*

“ Our sympathies are with your family. Ken, was a nice man who shared his passion on many things. When I was the recreation director in town, he helped with many events. Our senior programs at the time were lucky to have him present when needed. He stuffed eggs for our egg hunts too. We had a painting class once on a Saturday and he made the class really fun. He will be missed. Always a friendly smile and wave when he biked.
