“ *So many memories of Lois have come forward since learning of her passing; way back to when we were highschool soulmates. Though our lives took diverse paths, part of my heart has always belonged to Lois. We laughed our insides out over things we found funny and shared sorrows that only girlfriends could hear. I'll never forget overnighting at Helen and Bob's farmhouse, their boistrous family including a big black Newfoundland dog walking across (Tucker???) the row of sleepers in the living room. It was wonderful when we knew that Lois found her love and happiness with Bob and when she became a mom to beautiful Lauren. I've always imagined that Lois's talents and energy would make her an incredible coach. Bob & Lauren, you have my deepest condolences. There are just never any words to cover our feelings. - Rose*

“ When I worked in Pemberton I knew Lois to be a great colleague within her department. She had a wicked sense of humor, and great outlook on life as a whole. I am sure those qualities served her well during her long battle. She was a dedicated professional, and made so many strong and lasting friendships during her tenure. A fabulous person and top-notch role model for students and her peers. My heartfelt sympathies go out to her family and the many people whose lives she touched during her life.

“ When I met Lois 25 years ago. I could never have imagined what a true gift and blessing this friendship would be to me and my family. We would talk or text almost everyday and enjoyed getting together often. My home is filled with many crafts, wreaths and floral arrangements for all the holidays hand crafted by her. One of my most treasured memories is when last summer we made together the floral arrangements for my son's wedding. She had such a loving way of giving to others with all that she did. Her memory will live on through the way she choose to bless others.
