“ *Mr. Demers and his wife Lesley were some of the first people I spoke to when I wrote J.D. McDuffie's biography. The project wouldn't have been the same without them. Mike had a deep passion for motorsports and shared many wonderful memories of his time working with McDuffie Racing. He was particularly known for his booming voice, as J.D. said, "You won't need a radio. They'll be able to hear you just fine." He also penned the team's fan club newsletters, and provided invaluable insight into the world of NASCAR's smaller teams - information that would've been lost to history otherwise. It was a privilege and an honor to have met him, if for only too short a time. God bless, and Godspeed.*

“ Mike’s legacy reaches deep into the automotive trade. Along with his work product and his contributions to the iATN forums, he participated on the technical committees in support of the ASE Auto Parts Specialist (P2) test and the Official ASE Practice Test for P2. His input helped adjust the task list/job description for the P2 test, keeping the content relevant to parts professionals. In ASE workshops, he and his peers were responsible for writing and reviewing the test questions. Mike’s expertise contributed to the high quality of the P2 credential exam and the P2 practice test.

Mike was an advocate for his peers and did a wonderful job representing them. He was an extremely knowledgeable, humble, and thoughtful service professional. I am honored to have worked with Mike and spending time with him was a pleasure. Thank you to his family and friends for sharing this great man with us. His positive impact on our trade will be felt for quite some time. Sincerely, Dan B. ASE

“ I met Mike through iATN many years ago. I got to talk to him and spend time with him at various classes over the years. He was a pleasure to spend time with and to talk racing with. I loved listening to his JD McDuffie stories. Mike sent me his last Sons Auto Supply business card as well as some JD McDuffie die cast cars a few year ago after a conversation. I think of him every time I see the cars on my shelf. Mike will be missed

“ When we think of *BIG Mike* we think about his love of life, also his knowledge and love of cars. It would amaze me he could ride your car around the block and tell you what was wrong with it. Not only in his knowledge of cars but his ability to write things, such as invites what a imagination. His laugh was something else you didn't have to see him you could hear him, also his love for snowmobiling he loved his weekend with Michael and Christopher. I loved our time we loaded up the van 5 boys 4 adults and I don't know how many dogs we were going to see what Old Forge NY was all about it didn't look far on the map, well we went up and back in one day. I could go on and on but the important thing is he was a true friend, thanks for the memories you will live on in our hearts 💕💕
