“ *Our thoughts and prayers are with your entire family. All of you have touched our family in so many ways including Pat. We will never forget your kindness during our transitional housing, and all that you have done for Sacred Heart and how that impacted on the boys and their education. Joey, Nick and Tim have conveyed their heartfelt sorrow for your loss, and hope their prayers comfort all of you in some small way. We are all thinking of you at this time.##imported-begin##The Coccozza family##imported-end##*

“ Pat's passing is a terrible loss.

He was such a wonderful, considerate person and a good friend over the years. We worked on many engineering projects together, and I had the utmost respect and admiration for not only his skill as an engineer and attention to important details, but mostly for his caring attitude towards others.

I shall miss him very much.
