

Suzanne Bartlett

December 8, 1953 - November 19, 2021

Suzanne Bartlett of George Gray Apartments in Lakewood, NJ, went to be with her Lord and Savior on Friday, November 19, 2021. She was 67.

Suzanne is survived by her mother Edythe Antonelli and her sister Victoria Sereduk (Robert), her aunt and uncle, her nieces and nephews, many cousins, and her extended family and cherished friends. She was predeceased by her father John Alfred Bartlett and her brother John Bartlett of South Carolina.

Suzanne was born with cerebral palsy but that was NEVER a limitation to her. Later in her life, she was a breast cancer survivor & gathered together Sue's Pink Crew who walked with her to raise money for research. She travelled to different places with her devoted friends Toni, Brenda, Cathy and others and by herself to California to visit friends there. She was also blessed to spend special time with her "second" family Wendy and John who she loved so dearly. She was forever a student of life and was writing an autobiography. She found a home and the love of the staff and her neighbors at George Gray and friends at LADICIN. She was active in her church where she was loved very dearly. She was an inspiration and was loved by all who crossed her path and she will be greatly missed.

A Memorial Service will be conducted at a later date for family, friends, and all

who loved her.

Arrangements by the Perinchief Chapels, Mount Holly.

“ I first met Sue at Faith Baptist Church, as we had a mutual friend, Wendy. Wendy helped me to learn how to be patient and how to converse with Sue. It was sometimes a tedious process and Sue and I would get frustrated as we wanted to carry on a conversation together, and sometimes we weren't able to do so very well. Other times, the Lord opened the door of communication wide open and our conversation flowed so naturally! I was so blessed getting to know Sue, through our conversations and the times that we got to spend together at church and outside of church, just hanging out together at the mall, or the movies; and I treasure the fact she went out of her way to make it to my bridal shower! Although, she was physically limited by her disability she didn't let her disability define her in a negative way, as the world often defines people with disabilities. I believe that is because of her great faith in God and her allowing Jesus to define who she was, a valuable person with a disability, made in His image. Sue had gone through many types of trials some with her health and some other types of trials in her life, but her strong Christian faith was evident in those trials. I was always so blessed when she would share a word of wisdom or an encouraging Scripture at a Bible study at church, as I admired her strong faith in our Savior. I am so grateful to God for our friendship, I was so blessed by knowing Sue, she will be greatly missed by me and my family. Looking forward to the time that we meet again in Heaven!

“ *Suzanne was an inspiration to all who knew her. Although she had cerebral palsy it did not disable her. She lived her life fully and did not retreat even when faced with cancer. She used that experience to educate and help others. I know her friends at George Gray Apartments and Lehmann Adult Program will miss her terribly. I too will miss Suzanne-I enjoyed our conversations and always admired her spirit. RIP Suzanne.*

To know Sue was to know a true friend. Sue loved people with the love of our Lord! When Sue would smile it was like the sun coming out in a rainy day. When disappointments came Sue's way , and there were many as you can imagine living with CP and dealing with it's limiting factors, Sue would always rise above. And she managed to be joyful where you and I might let things get us down. I am so grateful that I met Sue and had her friendship.

I wanted to share this excerpt from Sue's autobiography that shows what an amazing person she was.....Who else but Sue? We will surely miss her so much....Life on this "Great Planet Earth" has never been easy for anyone. This is especially true for people living with physical disabilities, their families, caregivers and friends live with these frustrations on a daily basis. I feel blessed to have my disability since birth. I can say this because I have never known a life without my disability.

Very often, like so many other people with physical, mental and emotional disabilities, I have to ask the unanswerable question "WHY?" Then I remember I am still alive. The Lord and I definitely have total control of my life. I truly believe my disability is a gift from God. He will always be in control of my life. I don't know if I could have survived without Him. I can honestly say I wouldn't want my life any other way. I hope people see Christ in my life. People who really know me, say they really see Christ in me. That makes me very happy and proud. I truly believe God gave me my disability as my ministry. My disability is cerebral palsy.

I would love to read Sue's autobiography, she had always wanted me to read it. Has it been published? Are there copies? Thanks!
